GENERAL REGULATIONS

Caliber
There are no caliber limitations. It is prohibited to use any poisonous, explosive, or deleterious substances on or in any arrowheads, bullet, or projectile. It is prohibited to use a shotgun to shoot deer except with loads of 0 buck, 00 buck or single ball loads.

Checking Stations
Hunters and fishermen are required to stop at checking stations on their routes of travel to and from hunting and fishing areas. Vital hunting and harvest information is gathered at checking stations.

Evidence of Sex and Species
Hunters taking big game must leave evidence of sex and species attached to the carcass. In addition, hunters taking elk or deer during antlered only seasons must be able to show on demand for inspection the complete head and antlers.

Game Limits
Unless otherwise specified, the limit of big game for each license year shall be one of each species of big game, subject to sex and age specifications as designated on regulations.

Game Tags
When you have killed your game animal, cut out the proper month and day from the carcass tag and immediately attach the tag to the carcass so it remains visible at all times.

Hunting Hours
Authorized periods shall be from one-half (½) hour before sunrise until one-half (½) hour after sunset each day of the hunting season. (See sunrise-sunset tables - page 8).

Hunting Districts
The state has been divided into legally described hunting districts designated by numbers, wherein the limits, season dates, species and sex of game animals which may be taken are specified. These districts are as shown on the enclosed maps for Deer, Elk, Bear, Mountain Lion, Antelope, Moose, Bighorn Sheep and Mountain Goat Hunting Regulations and are more particularly described in that document entitled "Legal Descriptions." Legal descriptions are available at Fish, Wildlife and Parks offices and at agents that sell hunting and fishing licenses.

Marked Animals
Hunters may encounter big game animals that have radio collars, neck bands or markers. It is legal to shoot such animals, but markers and radios must be returned to the Department of Fish, Wildlife and Parks.

Vehicle Travel Restrictions
Hunters must not drive off established roads or trails except to get big game carcasses that would otherwise be difficult to retrieve, in which case a motor-driven vehicle may be used to retrieve the carcasses, except in areas where more restrictive regulations apply or where the landowner has not granted such permission. Vehicles used to retrieve game must take the shortest possible routes to and from established roads or trails. On federal lands contact the nearest agency office. Certain roads on public lands are closed to vehicles. For current status of closures, contact the appropriate agency (Bureau of Land Management, U.S. Forest Service, Bureau of Reclamation, U.S. Fish and Wildlife Service).

Permission to Hunt
Montana law requires that big game hunters must have obtained permission of the landowners, lessees or their agents before hunting big game animals on private property.

Clothing Color
With the exception of archers during special archery seasons, it shall be unlawful for any person to hunt big game animals or to accompany any hunter as an outfitter or guide without wearing exterior garments above the waist totaling not less than four hundred (400) square inches of hunter orange material, visible at all times while hunting.

Littering
A person convicted of littering while hunting, fishing, camping, or trapping shall forfeit his license or privileges to hunt, fish, camp or trap within Montana for a period of one year.

Importation of Horses and Mules
The Montana Department of Livestock requires an animal health permit prior to entry. For information call 406/449-2043. A brand inspection is required within Montana.

DEER REGULATIONS

Only outside hunting dates for the **general** deer and elk seasons are included here. **Complete hunting dates and bag limits for deer and elk will be available in a special supplement** from game license agents. The supplement will be available after regulations have been set in March.

GENERAL deer and elk seasons as referred to in this text are seasons during which the **majority** of hunting districts are open to the hunting of deer and elk by holders of resident deer A and elk licenses and nonresident $275.00 licenses without the need of any additional licenses or permits.

SPECIAL deer and elk seasons, in contrast, are ones where participants must have some additional license or permit. With the exception of pre-firearm archery seasons, special licenses and permits are limited in number and are usually issued through drawings.

LICENSES VS. PERMITS

A hunting **license** is a document that authorizes the holder to hunt and take specified game. A special **permit** gives the holder a wider choice of the age and sex of animals that may be taken in specific districts than would be possible without the permit. A permit does **not** provide for taking a second deer. Before hunting, permit holders must have appropriate hunting licenses.

KINDS OF DEER LICENSES

1. **Deer "A":** Resident hunters may purchase one deer **A** license during a license year. An **A** license is included in the resident sportsman's license and the nonresident $275.00 license. These **A** licenses authorize hunting in all deer districts open to general hunting unless regulations specify otherwise.

2. There are also a limited number of nonresident deer **A** licenses available through a drawing to nonresidents who do not possess a $275.00 combination license. These licenses will be valid only in specific districts and for specified species and sex of deer.

3. Resident and nonresident **B** licenses are available through drawings in limited numbers. Each **B** license is valid for a specified hunting district. **B** licenses usually provide the opportunity for taking a second deer, but hunters need not hold an **A** license before applying for a **B** license.

APPLICATION FOR DEER PERMITS, B DEER LICENSES AND NONRESIDENT DEER A LICENSES MUST BE POSTMARKED NO LATER THAN JUNE 15, 1983. See "Applying for Licenses and Drawings," Page 8.

IF A HUNTING DISTRICT NUMBER IS IMMEDIATELY FOLLOWED BY A TWO-DIGIT NUMBER (EXAMPLE: 311-01) YOU MUST INCLUDE ALL NUMBERS WHEN MAKING APPLICATION FOR DEER PERMITS, DEER B LICENSES OR NONRESIDENT DEER A LICENSES.

EITHER SPECIES: Means mule deer or whitetailed deer
ANTLERED BUCK: Means male deer with antlers not less than four inches in length measured from the top of the skull.

ANTLERLESS: Means female deer or juvenile males without antlers.

SPECIAL DEER ARCHERY SEASON

Only long bows and arrows may be used for hunting or killing deer during special archery seasons.

An archery stamp in addition to the proper hunting license is required of all hunters during special archery seasons. Licensed hunters may use archery equipment without archery stamps during regular gun seasons unless specified otherwise under district hunting regulations.

The regulations below apply to holders of Resident Deer **A** Licenses, Resident Sportsmen Licenses and Nonresident $275.00 licenses, unless specified otherwise.

Holders of other deer licenses may hunt with long bow and arrow during special archery season dates as designated but only in the districts and for the sex and species of deer specified on their Licenses.

ELK REGULATIONS

HUNTING TIME PERIODS

In some districts, special permits are valid for only a few specified days of the overall season. The purpose is to prevent congestion by limiting the number of persons hunting in an area at one time.

Assignment of time periods is determined by the order in which the applicants are computer-picked during drawings. Once assigned, time periods cannot be changed nor exchanged.

NONRESIDENT ELK ($275.00 COMBINATION LICENSES)

There is no nonresident license other than the $275.00 license that authorizes elk hunting. Nonresidents must first hold a $275.00 combination license in order to apply for a special elk permit.

DEFINITIONS

Antlered elk: Any elk having an antler or antlers of at least four inches in length as measured from the top of the skull.

Branch antlered elk: Any elk having an antler or antlers with a visible branching of one or more extensions from the main antler. An extension or branch must be four (4) inches in length or more as measured from the main antler.

ELK DAMAGE HUNTS

If it becomes necessary to have late elk hunts to alleviate damage, hunters who applied earlier in the year for special elk permits, but were unsuccessful in drawings, will be given first opportunity to hunt.

If there were no previous permit drawings for the district where the late hunt is to be held, then hunters who applied for elk permits in other districts within the administrative region will be given first opportunity to hunt.

PERMITS VALID IN PORTION OF HUNTING DISTRICT

In some hunting districts special permits are valid in only a portion of the hunting district.

Maps and/or descriptions of the areas will be provided to successful applicants in those hunting districts.

SPECIAL ELK ARCHERY SEASON

Only long bows and arrows may be used for hunting or killing elk during special archery seasons. An archery stamp in addition to the proper hunting license is required of all hunters during special archery seasons. Licensed hunters may use archery equipment **without** archery stamps during regular gun seasons unless specified otherwise under district hunting regulations.

It shall be unlawful for archers to use any livestock to kill, take, attempt to take, or harass elk during the elk archery season. This shall not prohibit the use of livestock to get to the hunting area or to remove downed game animals.

HUNTING DISTRICTS

Deer and elk hunting districts other than exceptions described below open to archery hunting only for either sex elk. Sept. 10, 1983 through Oct. 16, 1983.

PREFERENCE IN DRAWINGS

5-Year Preference For Moose, Bighorn Sheep, and Mountain Goat

The system whereby persons may receive preference in drawings after applying for moose, sheep or goat licenses for five or more consecutive years is being phased out.

Persons who hold a 1983 notice showing five or more years preference may claim preference for the 1983 drawings. Seventy-five percent of the licenses authorized for moose, sheep and goats will be available to this group.

Anyone with less than five years preference will not receive preference consideration for 1983. Applicants in this group will receive 25 percent of the licenses available for each species. After 1983 the preference system will be discontinued and thereafter all applicants will have an equal chance of success in drawings.

Landowner Preference

Montana landowners who qualify may receive up to 15 percent of the antelope licenses, deer B licenses and special deer permits annually issued in each hunting district. To qualify, one must be the owner of record or be contracting to purchase at least 160 acres of land within the hunting district applied for. The land must be used primarily for agricultural purposes.

JUDGING A "LEGAL RAM"

When a straight line extending from the front base of the horn through any portion of the eye opening intercepts any portion of the horn, the ram is legal. If the horn is not long enough to be intercepted by the line, the sheep is not legal.

Base of the horn shall be considered as the point where the horn meets the hairline of the head. See the illustration above.

"UNLIMITED" LICENSES

The following licenses may be purchased no later than August 31 without going through drawings. These seasons will close on 48 hours' notice if quotas are reached. This could possibly be within a few days after opening in some districts. To inquire on current status of harvest during the hunting season, please contact the respective Fish, Wildlife and Parks office
